PALESTINE RESCUED

Charming New Coats

OF greatest charm to the woman of taste in dress is the delightful variety of effects to be seen in the new Coats by Bischof.

Such facility in designing skill as is shown in the treatment of those details which make for real distinction, such effectiveness of line, such variety in fabrics render an inspection of the assortment now on view a rare treat.

We shall take pleasure in showing them to you.

Prices \$25, \$35 to \$75

ALLIED FORCES WIPE OUT TURKS

BULGARIANS IN FULL FLIGHT BEFORE SERBIANS AND FRENCH IN MACEDONIA.

(By the Associated Press)

Moving northward with surprising speed and power allied troops in Palestine apparently have dealt the Turks a blow that may shatter their power in that war theater. According to reports the Turks are completely defeated and the march of British, French and Arabs toward the sea of Tiberias is virtually unopposed. The advance has carried them to Nazareth and they are approaching the ancient city of Tyre.

Serbian troops are still moving swiftly over the hills of southern Serbia having cut two important German and Bulgarian lines of communication without which Bulgarian and German reinforcements were forced to retreat. To the east the French have reached the Vardar river and Italian units are now engaged in a battle in the Cerna bend district.

British and French armies continue their attacks against the outer defenses of the Hindenburg line north and south of St. Quentin.

25,000 TURKS CAPTURED.

London, Sept. 23 (4 p. m.)—Twenty-five thousand Turkish prisoners and 260 guns had been counted up to yesterday evening by General Allenby's forces pushing northward through Palestine, according to an official statement. The seventh and eighth Turkish armies, the statement adds, have virtually ceased to exist. The entire transportation of these two armies was captured by the British.

40,000 TURKS CAPTURED.

Reports from the Palestine front this afternoon indicated none of the Turkish forces of at least 40,000 trapped by the British through seizure of the last passages of Jordan can possibly get away.

British Make Small Gains.

With the British Forces in France, (10 A. M.)—In a small attack east of Gavrelle in the Arras sector, the British last night advanced their lines for an average depth of 600 yards along 1,000 yards front.

60 Tons of Bombs on Metz.

Machines of the British independent air force dropped nearly sixty tons of bombs on German airdromes and on blast furnaces in Metz sector Sunday night, according to official announcement.

Bulgarians in Wild Flight.

London, Sept. 23.—Serbian troops have cut the main railway lines between Uskub and Saloniki and are on the western banks of the Vardar river, according to Sunday's Serbian official statement. West of the Vardar river the Serbians have cut the railway line to Prilep which is the main line of German communications in this region. Serbian infantry units are in the mountainous regions and advanced twenty-five miles in one day. Prisoners and war material captured have increased daily. Since September fifteenth the Serbians have advanced forty miles.

British Capture Positions.

London, Sept. 23.—The British last night attacked the German lines between St. Quentin and Cambrai opposite Le Catelet making progress in Tombois farm vicinity and capturing a group of trenches and strong points northwest of Vendhuil, field Marshal Haig announces. Northwest of St. Quentin the Germans penetrated the British line at Bethacourt during an attack, but the position was re-established by a counter attack.

French Capture Venduil.

Paris, Sept. 23.—The French yesterday progressed in their encircling movement about St. Quentin pushing in far on the south and capturing Venduil village close to the river Oise, nine miles southeast of St. Quentin, today's war office statement announces. From Venduil the French pushed on to the river. North of La Fontaine they penetrated in the direction of Hinacourt.

VISIT OF LIBERTY TRAIN POSTPONED

Mr. Shackelford, local agent for the Santa Fe, received a wire this morning stating that the date of the visit of the Liberty Train to Ada has been postponed indefinitely. It had been set for Thursday of this week, but nothing definite is known of the new arrangements.

ENEMY LOSES 600,000 MEN IN 2 MONTHS

Paris, Sept. 23.—In a review of the battles in France during the past six months, the Havas Agency credits to the American troops the re-establishment of the balance on the western front and points out the entire change that has taken place in the last two months.

"In the last two months alone," it says, "the allies took 185,000 prisoners. The enemy losses in men who will never be able to return to the ranks is estimated at 600,000; a void which the 1920 class will not suffice to fill."

LIBERTY LOAN DRIVE WILL BEGIN SATURDAY

The Fourth Liberty Loan campaign will be formally launched Saturday by a public demonstration in the streets of Ada. A parade will be the chief feature of the occasion, the school children and various branches of war work being represented and arranged under direction of O. N. Walker.

The parade will disband on 12th street and a war speaker will deliver an address from the band stand which will be moved from the city park this week and placed on the parking of East 12th.

NOTICE MASONS.

Ada Lodge No. 119, A. F. & A. M. will meet tonight in called communication for the purpose of work in Entered Apprentice degree.—John Thrasher, W. M.

40,000 BOYS ENROLL IN AGRICULTURAL CLUBS

Oklahoma City, Ok., Sept. 23.—In spite of the excessive drouth of the present year, in which all agricultural efforts were handicapped possibly as never before in the history of the Oklahoma country, the enrollment in boys' clubs of all kinds in the farming communities amounted to 40,000 members, more, than three times as many as the previous year. This is the statement of John E. Swain, boys' club agent for the state, to the State Department of Agriculture.

Speaking of this Mr. Swain said: "I have not heard of any state in the South exceeding this enrollment. In spite of the severe drouth which has greatly handicapped club work in Oklahoma, these young people will produce this year considerably over \$1,000,000 worth of foodstuffs."

TO MAIL SUBSCRIBERS.

The new rule of the government that subscriptions must be kept right up to date will go into effect October 1 and the News will have no option in the matter, but must stop all delinquent subscriptions as ordered. A sworn statement to that effect must be made every week. Look at the date on your paper and see how you stand.

A few days ago the headline of the News was "20,000 Bulgarians Captured," one of the boys selling the paper on the streets gave it a new version, calling out "20,000 Bull Germans Captured."

The Women's Department in the Liberty Loan campaign has no connection with any other movement. It was organized under direction of Secretary McAdoo who realizing the value and importance of the work the women could do instituted the committee at the very beginning of the first campaign and has maintained it ever since. The women have raised millions in previous campaigns and will do the same this time. The workers are devoting every energy to making a success of the fight for a successful sale and are not bothering with any other issue before the people, believing that every tub should stand on its own bottom.

SUPPOSING.

Some military authorities have expressed the opinion that the decisive battle of the war will be fought on the plains of Austria. Now just supposing that the British army which is sweeping all before it in Palestine and the one in Mesopotamia that captured Bagdad last year effect a junction in Asia Minor and from there into Constantinople and forming another junction with the Allied army now chasing the Bulgarians, and at the same time the Italians break through the Alps and all these armies join forces, wouldn't it be some scrap? Austria disposed of then would come the march northward into Germany and the armies on the western front would then be forced to fall back or be surrounded and in case of a retreat they would still be between the devil and blue sea. While this is just supposing the case, it now looks as if these very moves might be made and the war ended from the south rather than the west.

What the U. S. Government Says

About the Christmas Business.

The Retail Interests represented at the conference have agreed not to increase their working force by reason of holiday business over the average force employed by them throughout the year and not to increase the normal working hours of their force during the Christmas season. They also agreed to use their utmost effort to confine Christmas giving except small children, to useful articles and to spread the period for Holiday purchases over the months of October, November and December, in order to relieve the transportation facilities of the country of congestion in the latter half of December which would be so hurtful to the interest of the Nation, that it cannot be permitted. The retail interests represented at this hearing have agreed to co-operate further in the campaign heretofore and now being carried on under the auspices of the War Industries Boards to restrict deliveries and to induce their customers to carry their own packages wherever possible.

We expect to carry out this request and especially ask those who expect to buy holiday goods to do so as early as possible.

Our Holiday Opening Sale will begin Saturday, October 5th.

DUTCH WILL RECLAIM LARGE BODY OF LAND

(By the Associated Press)

Washington, Sept. 23.—Under-taking a project which will cost about \$89,244,000 and will add 523,440 acres of tillable soil to the area of Holland, and which will require 33 years for completion, the Dutch government has begun preliminary work of draining the Zuider

Zee. A commission has been named to take the necessary steps for the commencement of construction work, under authorization of an act passed by both houses of the Dutch legislature, which received the royal signature June 14, 1918, according to a report from Commercial Attache Paul L. Edwards, at The Hague.

The work of turning the bottom of the Zuider into fields and gardens is divided into two distinct phases: First, the building of a great 18-mile dike from the Island of Wieringen to a point near the town of Priam on the coast of the province of Friesland; and, second, the construction of four dikes within the sea and the draining and reclaiming of the land in back of these barriers.

The average depth of water which the great dike will encounter is about 12.3 feet below mean average sea level. The height of the dike itself above sea level will run from 18.9 feet to 17.6 feet.

The body of the main dike will consist of sand on a body of brush and stone, with a surface covering of clay, and the outside lateral surface will be faced with a basalt riprap. A double-track railroad will run along the dike on the inside. This clay for the surface will be dredged from the bottom of the Zuider Zee and also will be transported from the island of Wieringen as waste material of a canal that will be under construction there. The total volume of the dike is estimated to be about 39,238,000 cubic yards. The estimated cost of the dike proper is about \$11,256,000.

Although the completion of the entire project will require 33 years, 53,600 acres comprising the first section of reclaimed land will be available for cultivation within fifteen years. Experts assure the Hollanders that the soil will be fertile, as, after the great dike has cut off the sea, the Zuider Zee gradually will turn fresh, owing to the continual emptying into it of fresh-water streams.

Several important fishing villages, such as Vollenland and Marken will be no longer touched by water, so the government has promised that special laws shall be passed providing for adequate indemnification of the fishermen and providing funds for the removal and re-establishment of their industry on the North Sea.

The government expects to receive about \$13 per acre per year as rental for the reclaimed soil.

GERMANY PLANNED IN ADVANCE FOR WAR

(By the Associated Press)

Washington, Sept. 23.—Another convincing link in the proof that Germany was preparing to start a war of world conquest at least six weeks before the excuse for it was offered by the assassination of the Austrian heir apparent at Sarajevo, concludes the amazing series of disclosures which the American government has given to the public through secret documents brought out of Russia.

Two authenticated documents are included in the final chapter of the story which began a week ago with evidence removing any doubt that may have existed that the Russian Bolshevik government, headed by Lenin and Trotsky, is a tool of the imperial German government. One of these is an original circular from the German general staff dated June 9, 1914, directing that all industrial concerns be notified to open their secret instructions for industrial mobilization. Another dated November 20, 1914, is from the German naval general staff and reveals that within four months after hostilities began in Europe "destruction agents" were ordered to Canada and the United States to hire anarchists and escaped criminals for the bomb plots and work of terror which finally played a part in drawing the United States into the war.

In addition to this authenticated evidence, Edgar Sisson, who obtained the papers for the committee on public information, offers a remarkable group of circulars put out in Russian text at Petrograd last winter purporting to be copies of documents taken from the archives of the counter espionage bureau of the Kerensky government, supplemented by some from the files of the same bureau before the fall of the Czar. Some of this matter has been published in France and in this country. The circulars tell of German arrangements six months before the outbreak of war for the establishment of the financial agencies in bordering neutral countries which later furnished the money for the operations of the Bolsheviks; of orders to German banks to establish close and secret relations with American and Finnish banks; of the launching of revolutionary propaganda against the Czar's government in Russia as early as November, 1914, and of instructions to German diplomats in all neutral countries to co-operate with agencies set up in those countries for stirring up social unrest, strikes and sentiment against war within enemy states.

The name of Scheidemann, the German Social leader, already mentioned as involved in the dealings of the German government with Bolsheviks, appears attached to one of the unauthenticated documents. It is a note announcing that one hundred and fifty thousand kroners have been placed to the credit of a Russian newspaper, and asking that Vorwaerts (the name of Scheidemann's organ at Berlin) be advised of what appeared in the subsidized journal.

An appendix to the concluding installment is what purports to be a transcript of a unique telegraphic conversation between Tchitcherine, now Bolshevik foreign minister at Petrograd, and Trotsky at Brest-Litovsk last February a few days before Trotsky made his notorious "no peace—no war" play. Tchitcherine is quoted as promising that a separate peace by Russia would not cause a rupture with the allies and saying that England and America are "playing up to us separately."

The Flavor Lasts

ARTILLERY OFFICERS' TRAINING SCHOOL

(1) This committee is in receipt of a communication from the Commanding officer, Camp Zachary Taylor, Kentucky, advising that he is unofficially informed from reliable sources, that all men within the new draft limits, regardless of classification, may now be admitted to the school. All men, except those in Class one, and deferred classification on industrial grounds, will be, if unsuccessful, permitted to return to civil life on completion of their course.

(2) Applications should observe that the Field Artillery is in need of officers who have had a scientific or technical education, but this is by no means a pre-requisite to the selection of candidates. It is essential however, that every candidate should now have, or be fitted, through previous study, to re-acquire at this school, a thorough understanding and working knowledge of Arithmetic, Algebra, to include quadratic equations and plane geometry. Civilians must be graduates of High school, or have pursued an equivalent course of instruction. A knowledge of trigonometry, including the solution of triangles is desirable. Applications will not be entertained if the candidate be under 20 years and 8 months and over 45.

Blanks may be secured from the chairman, and immediately upon receipt of application, questionnaires will be forwarded to sponsors and action taken by this committee, as soon as file is complete.

Yours very truly,

JOHN H. SHIRK, Chairman,

605 Security Bldg., Oklahoma City.

TO THE PEOPLE OF ADA:

As the government will not let us use the labor and material to pipe the town at this time, we are forced to withdraw our petition for franchise. We have made arrangements with the McThwaite Oil & Gas Company to furnish them gas at the old rate, so there should be plenty of gas for everybody.

We thank all our friends for what they have done for us in this matter. —American Oil & Refining Co., J. R. Kitchel, Mgr. 9-23-21

W. C. ROLLO

A FAIRYLAND CIRCUS.

"It's a wonder the young man can ever accomplish the great and masterful trick you are about to see," announced Mr. Giant.

Now the Fairyland people were giving a circus. They hadn't had one in ever and ever so long and they were going to have an especially fine one. It had just started. The clowns, Billie Brownie, Peter Gnome and Peter Goblin, as well as Bennie Brownie had shown the fairies, elves, brownies, and others of Fairyland to their seats. All who were not performing had come to watch the circus.

Those who were about to perform were behind a big curtain made of moss. Mr. Giant stood in the center ring—for there were three rings to this circus. And he was going to announce the acts as they came on.

The one he had just spoken of was about to begin.

"It's a wonder," said Mr. Giant, "that the young man can do such a great and daring trick." And then the band played very hard and very fast, and all the fairyland people sat at the end of their seats, feeling quite breathless while Mr. Bernard Brownie hopped up on a rope and walked along it, carrying

They Jumped Through Pink Hoops.

with him a parasol made out of oak leaves and moss.

After he had walked along the rope backwards and forwards, out came Miss Bessie Brownie with a parasol made out of rose leaves.

They each walked the rope, one at one end and one at the other, and when they met in the center they passed by each other in the most amazing manner ever seen.

The fairyland people clapped. They thought that was a great trick, and Mr. Giant called out in his loud voice:

"It's a wonder the young lady can do such a trick. The still greater wonder is that they can do such a trick together. They are the great Brownie rope walkers, greatest the world has ever known."

And then Mr. Giant cracked his whip while the Elves came out riding beautiful white horses. They jumped through pink hoops which matched their pink costumes and they did the most wonderful of tricks. There were some horses and elves for every ring. How gorgeous they were!

After that many of the fairies came out dressed in white, their faces were powdered so they looked quite white. They stood inside dark curtains and got into interesting positions, just like statues, and then when they were ready, Mr. Giant blew a whistle, the curtains were drawn aside and the fairies were seen—looking like statues and not like fairies.

That act was greatly appreciated, and then the goblins did fine trapeze tricks, swinging, catching each other as they swung from bar to bar and turning somersaults.

Through all of this the band played and the fairyland people laughed and applauded. In fact some of them said their hands were actually tired from clapping so much, and yet they couldn't stop clapping for the tricks were so wonderful.

The clowns, Billie Brownie, Bennie Brownie, Peter Gnome and Peter Goblin walked around and cracked jokes, they said funny things and did funny tricks and behaved just like real clowns in any circus.

There were other brownies who sold pink lemonade and peanuts and who kept calling out:

"Come now, get a bag of fresh peanuts. Or get a glass of pink lemonade. The thing to do at the circus is to eat too much and to get sick. Come on, have some pink lemonade."

But some of the brownies in the audience told the brownies who were selling the pink lemonade and peanuts that they shouldn't call out such things—that people in the real circus never did. For, they said, if they warned the people that the pink lemonade and peanuts might make them sick if they kept on buying and eating and drinking, they would never sell any.

And after all the tricks were over, Mr. Giant announced a fine concert to be given at the close of the program for which all the little people of Fairyland stayed, and the chief entertainer was dear old Witty Witch, who told fortunes and sang songs.

Story of a Nice Uncle.

Little Charles—Uncle John, did you ever hear the story about the good little boy who had a nice uncle?

Uncle John—No. Tell it to me.

Little Charles—Well, the nice uncle gave the good little boy a quarter to buy a Thrift Stamp. That's all.

IF WE COULD SPEAK TO YOU

it would be easier than to write about the ADVANTAGE of BUYING DRUGS HERE.

We could, perhaps, tell you more convincingly of the MERITS of OUR DRUGS and of OUR SERVICE.

The best way to impress these points upon your mind is to have you TRADE WITH US a few times.

M. A. WAITS

DRUGGIST

107 East Main
Successor to Ada Drug Co.

Wayside Ministries.

This is a hurrying age, as we often remind ourselves, and many tasks which we would like to accomplish must perforce remain unattended to. But for some things there is always time. Duty can always be done, kindness can always be shown, wayside ministries need not be neglected. There is never an excuse for the haste that makes waste; there is always room, in the case of a man who, with divine help, plans his life for a certain amount of self-culture and social necessity.

Rich Fishing Ground.

What are termed the reef waters along the north and northeast of Honduras form one of the rich fishing grounds of the world. The region begins about 100 miles east of Ceiba and extends around some distance south of Cape Gracias A Dios. This is all more or less shallow water, forming one great coral reef with a number of small keys extending up above the surface of the water and forming small islands. It is thus an ideal fish and turtle ground.

Nature of Fatigue.

Fatigue is the presence in the blood of poisonous by-products of life combustion. While we are awake the poisons accumulate faster than the system can remove them. When we are asleep, when the life combustion is slowed down, the system removes them faster than they accumulate. It is as though ashes accumulate in a stove at such a rate that the fire had to be put out every so often to allow a chance to remove them.

FOURTH LIBERTY LOAN WOMAN'S DEPARTMENT

When war comes to a nation, the first essential for the prosecution of that war is money. It is necessary for arming and equipping an army and a navy; it is essential for food, for ships, for dependent families of soldiers, for everything that makes for efficient prosecution of war; and the total cost is so stupendous as to make any former outlay of the government trifling. It is estimated that in the neighborhood of \$14,000,000,000 will be spent by this country alone in the first year that we are at war.

There are two ways to raise this enormous sum of money—by taxation and by the sale of government bonds. The government could take our money as it has taken our men. It could levy taxes so heavy that the burden would be well-nigh unbearable. But it has seen fit not to do this, and Congress has authorized issues of government bonds, to be known as Liberty bonds, to help finance the war, thus offering to the people of the United States the opportunity to put their money into the safest and the most glorious investment in the world.

To borrow billions of dollars is an undertaking so important that the government must fail in it unless it

has the whole-hearted support of every one of its loyal citizens, women as well as men. It was in recognition of this fact that the Secretary of the Treasury created a National Woman's Liberty Loan Committee to help float the Liberty bonds to be put out during the war. In his informal address to the women he summoned to Washington to serve upon this committee, he stated that he felt certain no democratic appeal could be made to the country without the support of women citizens, and in submitting a report of the work of the National Woman's Liberty Loan Committee hopes that in addition to the concrete achievement, the reader will bear in mind the tremendous effect upon the sale of bonds undoubtedly made by the enthusiastic and patriotic support of the women of the United States.

Organization of National Woman's Liberty Loan Committee.

On May 7, 1917, the Secretary of the Treasury of the United States called to Washington for a conference in regard to the formation of a National Woman's Liberty Loan Committee the following women: Mrs. George Bass, of Illinois; Mrs. Carrie Chapman Catt, of New York; Mrs. Guilford Dudley, of Tennessee; Mrs. Antoinette Funk, of Illinois; Mrs. Kellogg Fairbanks, of Illinois; Mrs. George Thacher Guernsey, of Kansas; and Mrs. J. O. Miller, of Pennsylvania.

At this meeting it was decided that a woman's organization for the sale of bonds be instituted throughout the country, under the direction of an executive committee in Washington. Mrs. William G. McAdoo was made chairman of this committee. Rooms in the Treasury Building were put at the disposal of the new organization, and a clerical force installed.

The publicity bureau was immediately opened, in charge of Miss Mary Synon, to work in co-operation with the publicity bureau of the United States Treasury Department. It was decided to add the following members to the executive committee:

they were appointed by the Secretary of the Treasury in May, 1917: Mrs. F. L. Higginson, of Massachusetts, and Mrs. Frank A. Vanderlip, of New York; and later, Mrs. Ella Flagg Young, of Illinois; Miss Mary Synon, of Illinois; and Mrs. A. S. Baldwin, of California.

On May 9 the first meeting of the National Woman's Liberty Loan Committee was held in the Treasury Building, and a plan of organization was determined upon.

What Is Expected of Women. Oklahoma City, Ok., Sept. 17, 1918 To All District and County Chairmen:

In the preliminary outline of the campaign, of which you have a copy, we suggested that a working arrangement be made with the Woman's Committee.

It is the desire of the Woman's Committee to make their own separate reports, which are supplemental to the work of our Auditor, and we can see no objection to this being done, as it will in no way interfere with the general plans of the campaign.

We suggest that you apportion either a specific territory to your women workers or assign them to your men teams for specific canvasses, and their quota cards will go through regular channels for final distribution.

We have conferred with Dr. Andrews, the Woman's State Chairman, and it is our desire to have this campaign conducted along that line, believing that there is a distinct work which they can do. It is not expected that there will be a separate organization, but that they will work harmoniously under the general organization, and the results obtained will be centered through the Auditor's office in each county under the direction of the County Chairman.

It has been suggested by this office in conjunction with Dr. Andrews, that the women can be of great value in holding community meetings for women. Specifically pointing out to them the necessity of curtailing the household expenses in order that each family or individual can by this saving buy bonds, whereas the money would otherwise be spent in frivolous or unnecessary ways, and we believe that much good will result from these meetings.

This is to be an all American campaign, and no one should desire any specific recognition for the bonds sold.

Yours very truly, L. E. PHILLIPS, State Chairman.

Strictly Cash.

On Tuesday, October 1, we go on a strictly cash basis to one and all alike. We solicit a continuance of your patronage.—Nagle, the Tailor, South Broadway. Phone 26. 9-21-2t

Official Food News

USE OF VICTORY FLOUR IS URGED

The use of "Victory Mixed Flour" now is being urged by the Oklahoma food administration as a result of a new wheat conservation program which has been outlined by Herbert Hoover in a message to C. B. Ames, federal food administrator for Oklahoma.

Among other things the new rules which went into effect September 1, abolishes the 50-50 rule of selling flour and wheat substitutes, do away with the six-pound per person limit on flour purchases and dispense with wheatless meals and wheatless days.

In place of the 50-50 rule there now is an 80-20 regulation, which requires the purchase of 20 per cent of cereals other than wheat in the buying of white flour. Preferably this should be done through the marketing of a mixed flour which will be available for household use.

It is desired to insure a supply of ready mixed flours on the market, and to have millers and dealers of all kinds encourage the use and sale of this flour so that the country may be on a mixed flour basis without the necessity of retailers making combination sales of flour and substitutes.

All such mixed flours made according to the following regulations should be labeled "Victory Mixed Flour," and are to be labeled with the ingredients in order of their proportion. The flour so mixed must be milled in accordance with the standards of the United States food administration. No "Mixed Flours" (except pancake flours) shall be made or manufactured except in the exact proportions as outlined below:

Mixed Wheat and Barley Flour shall be in the proportion of four pounds of wheat to one pound of barley flour.

Mixed Wheat and Corn Flour shall contain the proportion of four pounds of wheat flour to one pound of corn flour.

Mixed Wheat, Barley and Corn Flour shall contain the proportions of eight pounds wheat flour to one pound barley and one pound corn flour.

Mixed Wheat and Rye Flour shall contain the proportion of three pounds of wheat flour and not less than two pounds of rye flour.

Whole Wheat, Entire Wheat, or Graham Flour or Meal shall contain at least 95 per cent of the wheat berry. All these "Victory Flours" may be sold without substitutes, but at no greater price than the miller, wholesaler or retail dealer than in the case of standard wheat flour.

While the six-pound limit has been done away with, it should be carried in mind that the rule against hoarding still is in effect. This allows no purchase of more than a thirty-day's food supply to be made and this rule will be enforced rigidly, according to Judge Ames.

TRAVELING SALESMAN

Tells How He Regained Strength, Ambition and Vim.

Atlantic, Iowa.—"I am a traveling salesman and was run-down, worn out, no appetite and no ambition my druggist told me Vinol was what I needed and within a few days after taking it I commenced to gain and it built up my health and strength so every spring and fall I take it to build me up and it keeps me in splendid condition."—W. E. Brockelsby.

The reason we guarantee Vinol is because it is a constitutional remedy containing beef and cod liver peptones, iron and manganese peptones and glycerophosphates the most successful tonics known.—Gwin & Mays Drug Co., and Druggists everywhere. P. S.—For Skin Troubles. We guarantee our new skin remedy, Saxol.

Notice, Business Men.

I desire to call the attention of the business houses of the town to the fact that the order for lightless Monday and Tuesday nights has not been rescinded and that all sign-lights of whatsoever kind and all outdoor light not necessary for public safety must be turned off for these nights. Undue carelessness has caused some trouble and annoyance recently and sign lights have burned on lightless nights. Your patriotism can be manifested in no better way than in the observance of these regulations. Let me urge that this matter be given your close attention in the future.

A. L. FENTIM, Chairman County Fuel Administration.

DRAFT WILL APPLY TO NAVY AND MARINES

Washington, Sept. 23.—The program under which the navy and the marine corps will secure the men hereafter needed was announced today by Secretary Daniels, after conferences with representatives of his department, the marine corps and the Provost Marshal General's office. The navy is to have an average of 15,000 men monthly, while the marine corps will get 5,000 monthly for four months and 1,500 each month thereafter.

Of the navy's allotment of 15,000 it may enlist or enroll men who have special qualifications for certain navy work, but the remainder will come from "the run of the draft," navy officials cutting out skilled men to meet as far as possible the special needs of the service. Men who now hold or may hereafter be given deferred classification on account of dependency will be permitted to enlist in the navy as the higher pay given is expected to do away with the possibility of hardships to the dependents.

Much the same system will be followed in enlisting men both in the navy and marine corps. Naval recruiting stations will be known as "mobilization centers," each having a definite territory to serve. Marine corps recruiting offices also will be kept open.

Men desiring to enter either the navy or marine corps will be required to make application at the proper recruiting office. When men are accepted for the navy the mobilization officers will apply for them through their draft boards, but in the case of men qualified to enter the marine corps the recruiting officer will send a request to the Provost Marshal General will then order the local boards having jurisdiction to enroll them.

Navy mobilization points announced by Secretary Daniels include: New Orleans, for Louisiana and Mississippi.

Oklahoma City of Oklahoma, New Mexico and Texas.

St. Louis for Arkansas, Missouri and Kansas.

Notice Singers.

Participants in the patriotic singing for Saturday's Liberty Loan rally will meet at the Christian church Tuesday, Thursday and Friday evenings at 8 o'clock. Male voices especially urged to attend.

WILL LADIES HELP DECORATE CARS?

Two coaches have been reserved for use of Confederate veterans and visitors to the Tulsa reunion tomorrow at 12:30. Capt. Sam H. Hargis, commander of the local camp of veterans, asks if some of the ladies will not volunteer their services to help decorate the cars tomorrow morning. They will be needed about 8 o'clock to get everything completed on time.

The News is in receipt of a copy of the Camp Fremont edition of Trench and Camp sent by Theodore George, an Ada boy who is stationed there. It is a four page paper edited by the boys in camp, is full of interesting items and some excellent cartoons drawn by artists in khaki.

Sergeant O. D. Linsey of Camp Rich, Waco, Tex., is in the city on a ten days furlough to visit his parents, L. C. Lindsey and wife. He is in the quartermaster's department and has been kept so busy that this is his first leave of absence during the eleven months he has spent there.

The small iron signs at the intersections of the principal streets of the city have been replaced with heavy concrete monuments. The old posts were often knocked over by careless drivers, but with the new ones it will be tough on the auto that strikes one. The result will be more careful driving.

Carlton Weaver and wife are in the city on a visit to Mrs. Weaver's parents, R. E. Haynes and wife. Carlton has arranged for the carrying on of his newspaper at Wilburton and is preparing to enter the army. He has applied for admission to the tank corps where there is most doing. No one ever accused Carl of a lack of nerve and he will give a good account of himself in this capacity.

Substitute for Gold.

It is said that a serviceable substitute for gold is obtained by combining 94 parts of copper with six parts of antimony and adding a little magnesium carbonate to increase the weight. It is said that this alloy can be drawn, wrought and soldered very much like gold, and that it also receives and retains a golden polish. It is worth something like 25 cents a pound.

For the convenience of the public the News is carrying on sale a supply of Thrift Stamps and War Savings Certificates.

MISS JESSIE F. WINTERS

MISS CECIL BURDICK

Texas Girls Volunteer

Responding to the call for 200 additional workers to aid in the hut work of the Salvation Army in France, Miss Cecil Burdick and Miss Jessie F. Winters, have dedicated themselves to the service of our men in khaki in France. Misses Burdick and Winters sailed recently from New York.

Miss Winters and Miss Burdick were residents of Houston, Texas, and were business women of that city. Miss Burdick being the chief operator for the telephone company. They both resigned their positions recently to enter Salvation Army service in France.

Miss Burdick's mother and father, Ensign and Mrs. Floyd Burdick, former residents of Dallas, have been in France for some time serving in the huts just behind the trenches. Mrs. Burdick has become famous among the soldiers of the American army and is the champion pie and doughnut baker among the Salvation Army workers. She is known to the boys as "Mother Burdick" and she and her husband have been given much credit for helping to sustain the morale of the American soldiers.

Salvation Army women have been permitted to go nearer to the front trenches than any other women in France and the American Salvation Army girls have been closer to the front than any of their British collaborators.

The Salvationists establish huts in any kind of building they can secure and make it a recreational center for the soldiers. They furnish it with tables for games, and correspondence, and give to it a touch of home for the homesick boys on the firing line.

One of the most important parts of the hut equipment is some kind of a stove and kitchen utensils where pies and doughnuts and other goodies may be made and served to the boys at cost.

Salvation Army workers have won the hearts of the American soldiers because of their skill as cooks and because their pies and doughnuts remind them of home and mother.

Brigadier George Wood, head of the Salvation Army forces in the Southwest, with headquarters in Dallas, is receiving many applications from women of the Southwest for service in France. Brigadier Wood reports that there are many more needed for the hut work behind the lines.

The presence of the pure-souled, devoted Salvation Army women in the midst of the camp has a marked influence for good upon the soldiers—profanity ceases, a touch of home prevails, which helps to cure homesickness. While the women are ever alert to serve the soldiers, the soldiers themselves vie with each other in assisting the women in every way possible.

Military officials greatly appreciate the value of good American women in the camps.

The Salvation Army has a number of huts in France, and has also established one in nearly all American cantonments. The Army is now asking for additional funds to carry on this work and the Southwestern War Work Council composed of over one hundred prominent men and women of the Southwest direct the campaign in this section.

Brigadier Wood, with headquarters at Dallas, is chairman; and Senator Morris Sheppard, of Texas, Senator Robert L. Owen, of Oklahoma, Senator Joe. R. Ransdell of Louisiana, and Mrs. Governor Hobby are vice chairmen.

A number of stock farmers and business men of Pontotoc county held a meeting at the M. & P. bank Saturday and decided to hold a stock show at the county fair grounds November 1 and 2. It is intended to have every kind of stock represented and special committees have been appointed to see after each class. The racing department was turned over to the management of Mr. Parker of Ardmore, who will be given the grandstand receipts as compensation.

Another meeting of the new organization will be held October 4.

French Class Making Progress.

The French class for men of the draft age being conducted by Prof. R. G. Sears of the Normal is able to report splendid progress in the work. Although they have been studying but a week they can already carry on a connected conversation and at the present rate of progress they will be able to read and understand French newspapers in less than 30 days. The class is composed of the leading business and professional men of the city. Counting the drafted men's class and those at the normal more than 125 people in Ada are now studying this much needed language.

Many Mothers Ignore Science.

The doctors say we must not, but what harm does it do to rock a baby? It brings sleep and it brings music, for no mother ever rocked her child without a lullaby accompaniment. It's all gone, however, because steady science has said that it must go. The only baby that has a chance today is the one who is born at sea on the first day of a long voyage.—Exchange.

Valuable Cement.

A cement for making repairs on switchboards when iron or other metal has to be fastened to marble may be made from 30 parts plaster of paris, 10 parts iron filings and half a part sal ammoniac. These are mixed with acetic acid to form a thin paste. It is imperative that this cement be used immediately after it has been mixed.

English Words on Increase.

The English vocabulary has grown to great size. The number of words found in old English literature does not exceed 30,000; recent dictionaries have listed more than 400,000.
